

Monthly Text Topics

In the world of fast evolving technology, it is ideal to attempt to evolve as well. Nowadays, most people do not have time to check their emails, so monthly emails may not be helpful to many members. Some members may prefer to be informed of monthly changes via text messages or phone calls. Fortunately, there are many platforms like “Text-em-all” that can help to send bulk text messages to those members who wish to be included in the bulk text.

Many platforms cost money to send bulk text messages each week or month with limited characters. First, to offset the cost of sending the monthly texts or phone calls, you could raise the chapter dues \$1. To ensure you send the most information while dealing with limited character spacing, you could try to use the following format:

Important topics to mention:

Date of the Meeting (4/4/25)
